

SCKEA

Supply Chain Knowledge Evaluation Assessment

SCKEA is a gateway to success for professionals and organizations that goes beyond traditional evaluations by identifying areas for improvement and ensuring that supply chain teams have up-to-date knowledge and skills to manage cost-effective operations, supply chain complexities, and overcome disruptions.

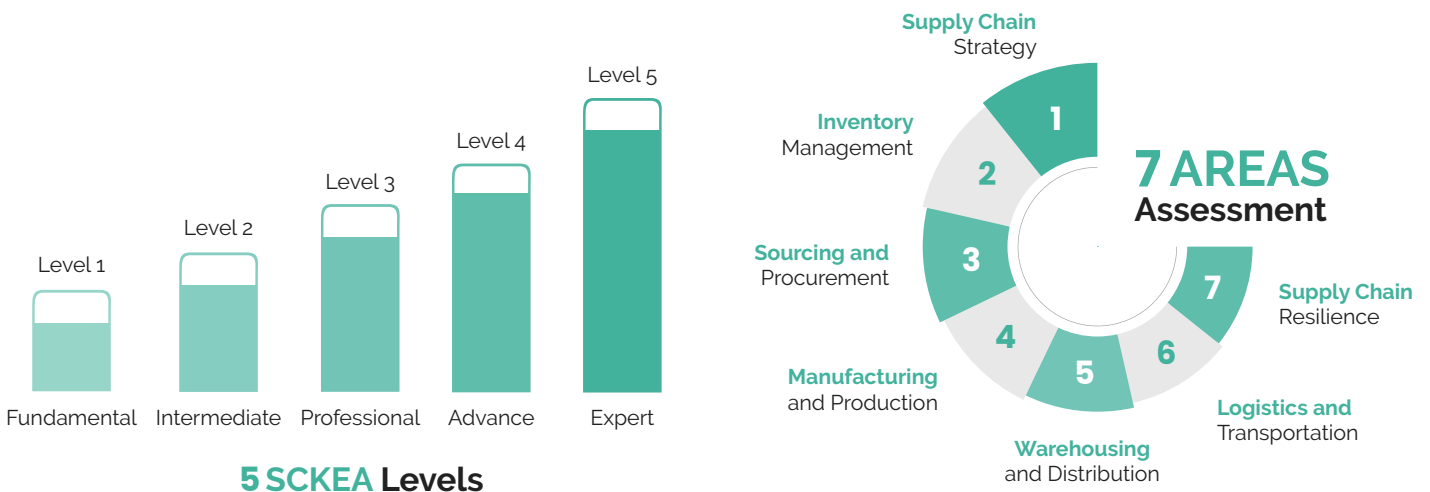

Smart Steps. Big Impact

About Supply Chain Knowledge Evaluation Assessment

VCARE Academy, Canada is introducing the **Supply Chain Knowledge Evaluation Assessment (SCKEA)**, a groundbreaking dynamic tool to evaluate, scrutinize, and measure the level of knowledge, strategic decision making capabilities, and problem-solving skills of supply chain professionals.

SCKEA is structured into 5 levels and 7 areas of assessment and focuses on end-to-end supply chain operations

” **SCKEA is not just an Assessment** **It's a Strategic Compass**

Supply chains impact every part of our lives. It is important that we effectively manage supply chain operations, managing its complexities, external disruptions, and the challenges posed by the "New Normal" world.

SCKEA isn't just about looking at yourself; it's about getting ready for whatever challenges come your way in the ever-evolving world of supply chain excellence. . SCKEA is like having a secret weapon for success in the competition. Use it to find out what you're good at, fix what needs fixing, and become a real pro in the exciting world of the supply chain.

Think of it as a checkup on your skills, showing where
you're awesome and where you can get even better.

About VCARE academy Inc.

A Body for Your Professional Certification

VCARE Academy is the world's first knowledge body, established with its primary focus on the value chain and its headquarters located in Toronto, Ontario.

We Left the Theory at the Door

VCARE Academy's aim is to focus on driving 100 percent practical and operational education, teaching both the WHAT and HOW of supply chain operations, setting a new direction and a different perspective to supply chain aspirants and has a global footprint

VCARE's dedicated research and development team is constantly developing internationally recognized accredited certification programs and partnering with many International affiliates around the globe to provide internationally accepted professional qualifications.

What brought VCARE Academy into existence?

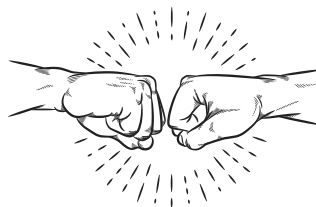

The majority of supply chain education programs, including degrees and training programs, fail to provide practical insights to the workplace in order for the learner to apply what they have learned in the workplace

During the past three decades, several supply chain certification bodies have been established. However, in the main, most of the education offerings have concentrated on the theoretical aspects of the subject matter and fallen short on the practical applications

What we strive for

We provide 100% practical education that teaches both the WHAT and HOW of supply chain operations.

What we're up to

We assist organizations to achieve their strategic supply chain goals by gaining visibility and transforming their supply chains into value chains. So, they will be able to meet emerging business challenges

What we're about

We help professionals improve their supply chain expertise and, at the same time, enhance their company's supply chain capabilities

Inspire Learning and Sharing Wisdom

In collaboration with our Official Knowledge Partners (KP) network, we are able to offer education programs worldwide to help you grow and excel in your career.
