AL-KADI COMMERCE & INDUSTRY

The Best Choice to Buy Truck Parts

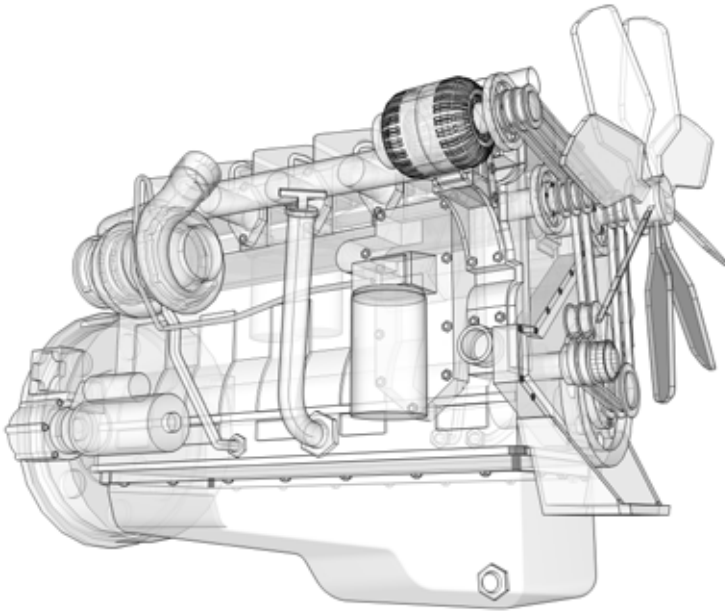

TRUSTED

Since 1940

Al-Kadi remained a leader in the industry for more than 81 years. And while we're proud of our history and has always been one of the leading firms in the Arabian Gulf. The company's presence in the Kingdom has always been a major factor in the building and development of the country's infrastructure for the past several decades.

Today, Al-Kadi has diversified into several businesses such as Truck and Trailer Parts, Truck Body Factory, Automotive Center and Development & Investment. As a dynamic business with decades of experience across sectors, cultures and geographies, the Al-Kadi Group constantly explores new frontiers, breaks new ground, and challenges the conventional.

TRUCK & TRAILER

Parts Division

The Gulf's leading importer and distributor of truck & trailer parts and accessories. The division offers some of the widest lines of products and services catered to the heavy transportation industry. The division hosts the most comprehensive line of genuine, replacement, OEM, and branded parts and equipment under one network.

The division caters its services to hundreds of transportation companies and fleet operators. Our ever-expanding line is constantly maintained at least 50,000 different items in stock, and 5.5 million parts in total. Parts and accessories for engines, gearboxes, lighting, body, electrics, hydraulic tipping cylinders, cement bulker air compressors, fifth wheels, landing gears, air suspension axels and bogies, brake systems, cargo, and multi-use hoses and belts are ready to be dispatched worldwide.

THE PROFILE OF A COWORKER

Operations Manager

WHAT YOU'LL

Be Doing

- Active on-the-ground managing operations team where you help in setting up an efficient and smooth process.
- Focus on reducing overall costs and shortening lead times.
- Monitor an office's work (employee historical monthly record, evaluation, etc.), overtime schedule reports, and maintain a full record of shipments.
- Coordinate transportation regarding branch transfers and port deliveries.
- Planning, organizing, and enhancing the performance and layout of the existing warehouses (4+ in total). This includes managing and organizing the local teams, equipment, shelving, and processes.
- Ensure a uniform, seamless, and rapid delivery of incoming supplies (about 1,000 shipments each year). The Purchase Department makes purchasing and shipping choices. Receiving supplies, inspecting materials, reporting claims, storing, or sending partial or all products to corresponding warehouses/branches, and eventually, client reception.
- Participate actively in the company's operations and SCM strategy to maintain and improve logistics
- Maintained effective workflow systems between product and sales teams.
- Implemented inter departmental systems and procedures for smooth coordination between related departments.
- Introduced tighter control systems on general administration so that routine work and day-to-day activities are carried out smoothly.
- Developed a methodology to identify parts related to various product groups and suppliers.
- Implemented proper control systems for automatic order preparation from various suppliers.
- Conceived and devised a thorough master system based on codification, price and movement, etc.
- Liaising with the warehouse when the new items are received and their proper storage.
- Preparing KPI reports.
